

Qiiip Safe | Prove

Measurable Readiness. Defensible Results.

Prove turns everyday safety routines into **defensible, grant-ready evidence**. It aggregates metrics, timelines, and after-action data from across Qiiip Safe modules to deliver proof of preparedness, accountability, and continuous improvement.

Why Prove Matters

- ✓ Demonstrates district-wide readiness and compliance
- ✓ Simplifies board, audit, and grant reporting
- ✓ Identifies gaps and tracks improvement over time

Core Capabilities

- **Standardized Reporting** – Unified library for drills, incidents, and training metrics across Prevent, Detect, and Orchestrate.
- **After-Action Timelines** – Auto-compiled detection-to-resolution history with notes, files, and redactions for privacy.
- **Scorecards & Benchmarks** – Readiness scores, trend dashboards, and district comparisons.
- **Export Packs** – Board, Audit, and Grant packets with KPIs, exceptions, and closures.
- **APIs & Integrations** – Secure data access for district dashboards and BI tools.

Designed for Your Team

- Superintendents & Boards – Receive readiness certifications and quarterly reports.
- Safety Directors – Manage KPIs, review timelines, and approve exports.
- Principals & APs – Track drill performance and training completion.
- Operations & SROs – Add after-action evidence and field insights.
- Data Teams – Access APIs for district dashboards.

Proof & KPIs

- Decision-to-Action and Resolution times
- Drill and training completion rates
- Verification accuracy and latency (Detect)
- Readiness score and quarter-over-quarter change

Optional Add-Ons

- TPaaS Certification
- External Penetration Testing
- BI Data Integration
